## Elbin

*Andreas Sture  
& Olle Andersson*

Elbin is designed to meet the needs of both the user and the cleaning worker. The conical shape of the basket together with the generous opening increases the degree of accessibility, creating a cleaner environment.

Elbin stands for accessibility, therefore the height of the throw-in is adapted for children and wheelchair users. Elbin is available in three sizes 120, 80 and 50 liters.

Elbin is also available with an integrated ashtray, which is then mounted in the lid and is locked with the same knob as the trash can.

[READ MORE ABOUT ELBIN →](#)

[REQUEST QUOTATION →](#)

*Above:  
The cigarette butt collector is easily emptied  
with one hand by unlocking the lid and turning  
the vessel so that the cigarette butts fall into  
the trash can.*

*Right:  
Elbin can also be ordered with “scarecrow”  
as well as with pawn holders.*

*This page:  
With a graphically clear and stylish idiom,  
Elbin fits into the city's different environments,  
both as a solitaire and in a group of bins.*

## Frame

*Broberg & Ridderstråle*

Frame litterbins is spacious and has a modern, simple shape with a roof integrated into the basket. Rubbish is emptied smoothly by opening the door on one side of the basket. Frame is available in two different sizes of 120 or 240 liters, with or without integrated ashtray and with tray table.

Frame is also available as a planting vessel.

Debris is emptied smoothly by opening  
the door on one side of the basket.*

*Left:  
Frame can be ordered with or without  
integrated ashtray and fastenable  
or freestanding.*

*Above:  
Frame is made of black Sablé but can  
be produced in any colour and with wheels  
at the cost of ownership.*

*Right:  
Frame with integrated ashtray.*

## Foga

*Eva Herdin*

Foga is a modern, user-friendly trash can for indoor use. The modular system makes it very easy to place in groups for sorting. For this, the trash can be designed with laser cut text or stickers. The lid seamlessly hides the contents of the basket.

The 80-liter model is also available with wheels and opening front, for easier handling. Foga is also available in a 120-liter model.

PAPPER

ÖVRIGT

*This page:  
By default, Nola can provide laser-cut text  
or source sorting stickers at extra cost.*

## Rekta

*Christina Jonsson Lillienau*

Rekta is a tight trash can for indoor recycling. The basket has three throw-ins for jars, paper and other with laser-cut text on top of the lid. Emptying takes place through the front door and lid opening.

Other text is possible on request.

[READ MORE ABOUT REKTA →](#)  
[REQUEST QUOTATION →](#)

## Hinken

*Thomas Bernstrand*

Hinken is large and spacious yet simple in its design. The recycle bin is made of fiber-glass reinforced plastic and is suitable for sorting with different throw-ins for cans, paper and glass, for example. It is available in white or anthracite grey as standard, other colours can be produced if necessary.

Other variants in the series are the smaller litterbin Hinken 40 and Hinken Planter.

## Hinken 40

*Thomas Bernstrand*

Stylish, modern and flexible recycle bin in fiberglass reinforced plastic with a powder coated steel lid. A smaller version of Hinken Recycle Bin.

Available in standard colors white and anthracite gray, but other colors can be produced if necessary.

[REQUEST QUOTATION →](#)

*This page:  
Hinken 40 is just one of a large number of  
products and furniture series that Bernstrand  
designed for Nola over the years.*

*The litterbin is freestanding but  
ground-mounted or fastenable options  
are available.*

## Tin

*Mia Cullin*

Discreet yet stylish and visible trash can with clear idiom for garbage handling. Available in two variants, with rectangular holes or rounded, and holds 80 liters. The Tin Bin is also available with text and with source sorting.

## Kvadrat Litterbin

*Eva Herdin*

Kvadrat perforated trash can with full or open lid and ashtray. The basket has a separate folding suspension device for the plastic bag.

The bin is available with three different brackets floor and wall bracket as well as a bracket to be cast into ground. As an accessory there are also post brackets with three different diameters.

The recycle bin has a practical stainless steel inner container that makes it both easy to care for and easy to empty.

[REQUEST QUOTATION →](#)

## Kvadrat Ashtray

*Eva Herdin*

Kvadrat ashtray has a square perforated pattern as well as a more powerful thickness of the mantle plate than its sibling product ZigZag.

The ashtray has a removable and stainless steel sealed inner container. The lid is made of pressure-blackened, natural anodized aluminum. There are two different poles as well as a wall bracket and rain roof.

*Above:  
Flexible, easy-to-care and durable trash can  
with many combination options.*

*Right:  
Kvadrat ashtray mounted at post for increased  
height and visibility.*

## ZigZag Litterbin

*Eva Herdin*

Herringbone-patterned litterbin with a full or open lid for the public space. Useful both inside and out. The basket has a separate folding suspension device for the plastic bag.

The trash can is available with three different brackets, floor and wall brackets and brackets for casting in soil. As an accessory there are also post brackets with three different diameters. By default, they are hot-dip galvanized to fit both to trash can Kvadrat and ZigZag.

Complete with the ZigZag ashtray. It has a practical stainless steel inner container that makes it both easy to care for and easy to empty.

[READ MORE ABOUT ZIGZAG →](#)

[REQUEST QUOTATION →](#)

## ZigZag Ashtray

*Eva Herdin*

ZigZag ashtray is a stylish yet discreet ashtray with a herringbone perforated pattern. It has a thinner thickness of the sheath plate than its sibling product Kvadrat.

The ashtray has a removable stainless steel inner container, which makes it easier to empty. The lid is made of natural anodized aluminum. ZigZag has two different poles as well as a wall bracket and rain roof.

[REQUEST QUOTATION →](#)

## Strikt

*Leena Landgren*

Strikt litterbin is a simple variant available in three different sizes that can be included with text for sorting. The collar on the trash can prevents the plastic bag from being visible and gives a clean impression.

Strikt is intended for indoor use.

[READ MORE ABOUT STRIKT →](#)

[REQUEST QUOTATION →](#)

## Basket

*Thomas Andersson*

Modern, colourful Basket gives a strong impression and is suitable in most environments both inside and outside. The trash can is very spacious, simple and flexible. It consists of an outer container made of round rod, pipe and flat steel as well as a drained tin container with a lid.

As standard, it is equipped with four stainless steel, springy bag holders. It is possible to choose from different options for attachment and special colors can be obtained against order.

[READ MORE ABOUT BASKET →](#)

[REQUEST QUOTATION →](#)

*This page:  
It is possible to choose from three fixed options;  
Basket with two support legs cast in ground,  
with cross stand for mounting above ground or  
floor or Basket with concrete plinth.*

## Slingan

*Gunilla Hedlund*

Slingan is a strong ashtray for public environments. It is made of matt-cut, stainless steel sheet with cigarette butt grille in cast, anodized aluminum and is therefore completely maintenance-free.

The ashtray has a folding bottom hatch for easy emptying, fixing bolts and wall mounting anchors are included.
